

Using Chapter 31, Vocational Rehabilitation, at the SANS Technology Institute

1) SANS Institute versus the SANS Technology Institute

The SANS Technology Institute (www.sans.edu) is the accredited graduate school subsidiary of the larger SANS Institute (www.sans.org), and so we have our own facility code that your counselor will need for your VA Form 28-1905.

If your counselor needs to add us to your state's database, please make that clear as soon as possible.

The address on the VA form 28-1905 should be:

SANS Technology Institute

11200 Rockville Pike

Suite 200

North Bethesda, MD 20852

Facility Code: available upon request, begins with 2

2) Enrollment Periods

Because of our admit cycles for certificate applications, the enrollment period on your VA Form 28-1905 should reflect when you would **actually** start your courses, which is roughly 75 days from your application deadline. This is important while working with your counselor and submitting your application.

5. ENROLLMENT PERIOD

(intended application deadline + Projected NSO start + 1 mo
= START OF ENROLLMENT PERIOD)

Example:

It's October, and Jane Doe is working with her counselor to secure a VA form 28-1905 for her application for the Penetration Testing and Ethical Hacking certificate program.

The next application deadline is Nov 15, and Jane knows that students admitted from that cycle will start New Student Orientation in January (45 days after the application deadline), which means Feb 1 is the soonest she would start her first course.

Jane's enrollment period on her VA form 28-1905 should thus **start** with February (versus November).
