Is your browser performing like this car?

- Slow
- Spyware
- Pop up ads

It's Time for a Tune Up

- Visit Qualys® BrowserCheck
<https://browsercheck.qualys.com>
from each of your browsers
- Click “Scan Now”

It's a Quick Fix

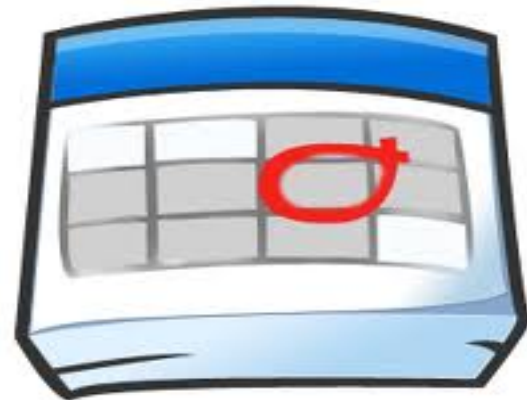

- Click It to Fix It

The image shows a security update notification interface with two entries. Each entry consists of an icon, a title and version number, a red button labeled 'Insecure Version' (circled in red), and a blue button labeled 'Fix It' (with a wrench icon). A red arrow points from the 'Insecure Version' button to the 'Fix It' button.

Item	Version	Status	Action
Mozilla Firefox	4.0.1	Insecure Version	Fix It
Silverlight Plug-In	4.0.51204.0	Insecure Version	Fix It

When Should I Do This Again?

- Set a monthly calendar reminder
- Add a shortcut to your browser bookmarks toolbar

Mechanic Summary

- Every Browser
- Every Month
- Your easiest upgrade
- Your best chance for a safe and smooth ride
